2	Indices and tables	5

This is documentation for Karaage 3.

Date Jul 01, 2019

Version 5.0

Contents:

INTRODUCTION

1.1 What is Karaage?

Karaage is a cluster account management tool. It can manage users and projects in a cluster and can store the data in various backends.

Note: You may think this documentation this documentation is largely incomplete. You might or may not be correct.
