3	Indices and tables	7

Create a RESTful resource for [Haystack](#)-based searches in [Django](#), using the lightweight [Restless](#) framework.

CHAPTER 1

API Reference

Resources

`restless_haystack.resources`

CHAPTER 2

Release Notes

- v0.2.0 (2016-11-16)
 - Renamed `HaystackResource` to `SearchableResource`. The former is still available, but deprecated, and will be removed in the upcoming 0.3.0 version.
 - * Same applies to `haystack_resource_factory` and `searchable_resource_factory`, respectively.
 - Added `SimpleSearchableResource`, which directly emulates the basic behaviour of Haystack's `SearchView`.
 - Added `AutocompleteSearchableResource`, which extends `SimpleSearchableResource` with `autocomplete` support.
- v0.1.0 (2016-03-10)
 - Initial release
 - Added `HaystackResource`
 - Added `haystack_resource_factory`

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`
